

Green & Blue

BY ISLAND GREEN

A new life within the nature

www.islandgreenconstruction.com

Who are we?

Originated in **Mağusa**, North Cyprus, Aykut Group of Companies was founded by investor business person **Aykut Satvet** 20 years ago. Carried its automotive sector success to construction, our company aimed to construct more applicable buildings with higher quality through the means of developed construction technologies. Our principle is to provide high quality services through an ever-evolving power along with 20 years of **experience**.

Launched the brand, Island Green Construction, our company has led all projects with reliable and quality-based **principles**, likewise in automotive sector; thus has taken all necessary steps from the beginning of the design.

Green & Blue

BY ISLAND GREEN

Our project, located in the Yeni Erenköy area of Karpaz, is the region where the green vegetation and deep blue sea meet, presents the green and blue in front of you like a postcard.

The Green & Blue project, named after its location, was designed with inspiration from the unique nature of Yeni Erenköy.

We'll make you a neighbor to the Mediterranean's
best coastline
